to help know and understand campus ministry

and secondly to develop frontier ministry awareness and skills.

Campus Ministry serves Jesus Christ in meeting religious needs on campus, a church frontier. It serves church members and the general public to develop knowledge and love of the Lord God in Jesus Christ. Our ministry is a daily interaction between gospel, the world of ideas and life. This frontier ministry is always challenging, seldom easy, ever fresh and vibrant. It differs dramatically from congregational life though it is rooted in established congregations and a ministry of our congregations and faces similar questions.

A shared service of our Lord Jesus, understanding of each other as congregations and campus ministry is essential. Eight ministry scenarios were discussed in light of the following questions:

1. What is our triune God doing on campus or in this world?
2. What does our triune God ask of us in redeeming the world?
3. What can I commit us to in the service of God on campus or in the world?

The plenary session brought out a lot of wonderful shared ministry wisdom and enabled Classis Huron to develop ministry for all.
