

To the Council of Bethel and the Stated Clerk of Classis,

God has encouraged me on this journey for the past couple of years. In the past, my poor health and miraculous healing had caused me to look at what I was reading in the Bible in a whole different light. By the nudging of the Holy Spirit, I studied and received a certificate in Heal Life from the Christian Leadership University. Gaining Holy Spirit-led knowledge, on many aspects of healing. From there I journey through the 6 week-long projects (conferences) led by Dunamis Fellowship Canada. Learning in depth about spiritual gifts, evangelism, healing, spiritual warfare, and the power of prayer. It was during that time that I felt God calling me into sharing what I am learning from the Bible with others. I often pondered if I was to take seminary courses – but each time I lifted that up the story of Peter and John came to mind –that they were ordinary men without schooling.

More recently, I had the privilege to attend preaching training under the wing of Pastor Ray Vander Kooij.

I feel that the Holy Spirit is calling me to follow this lead of perusing a license to exhort. Thank you for considering my request.
